

TECHNICAL DATA**FIX-LDPE**

Extruded low density polyethylene foam

DESCRIPTION

FIX-LDPE is closed-cellular low density polyethylene foam, extruded with butane/propane as blowing agent and manufactured in the required size for the customer.

TECHNICAL PROPERTIES	UNIT	VALUE	NORM
Nominal density	Kg/m ³	± 20	DIN53420
Water absorption	%	0,5	ASTM C-272-53
Thermal conductivity	W/mK	0,050	DIN 52612
Water permeability	S/m	3,5X10 ⁵	SSO21582

NB! The information supplied is accurate to the best of knowledge and is based upon all current data available to it. Properties quoted are typical and do not therefore constitute a specification. Customers must complete their own assessment of the product for its intended application under their own conditions. Our technical advice is to be regarded as an expression of opinion only and although such advice is given in good faith, it shall not, in any circumstances, be regarded as the basis of or as being a representation or statement of fact. This applies also where propriety or protective rights of third parties are involved. Any liability arising in respect of our products will be strictly limited to the value of those products charged to the customer and shall not extend to any consequential loss whatsoever and howsoever arising. Freedom from Patent Rights must not be assumed. This document does not form of any contract with a customer.
